

## STEP ON HOW TO STAKE

by DDKoin Support

To stake DDKoin, users need to have more than 1 DDKoin in their DDK main-net account. The minimum amount DDKoin can be stake is 1 DDKoin with fees 0.01% from the amount of the staked DDKoin.

First you need to log in DDK main-net wallet, then click on the “**STAKE**” button.

Enter the DDK stake amount and your account passphrase, then click on “STAKE DDK” button.

The image shows a 'Stake DDK' modal window with a blue header and a dark blue body. The header contains the title 'Stake DDK' and a close button 'X'. Below the header, a message says 'Please enter the DDK Amount that you would like to Stake.' The form has three input fields: 'Stake DDK Amount \*', 'Your Passphrase \*', and 'Your Second Passphrase \*'. A red arrow labeled '1' points to the first field, a red arrow labeled '2' points to the second field, and a red arrow labeled '3' points to the third field. Below the third field, there is a red arrow labeled '4' pointing down to the 'STAKE DDK' button. At the bottom right, there are two buttons: 'CANCEL' and 'STAKE DDK'. The 'STAKE DDK' button is highlighted with a red border.
